It's hard to believe that 2021 is coming to an end, and yet here we are. Together, we've experienced another difficult year navigating the ongoing COVID-19 pandemic, an increase in climate disasters, a

deepening political divide in our country and much more. But we've also witnessed local communities coming together and seen hopeful stories of resiliency across our region.

As I reflect on the significant events of the year, I also want to take a moment to look ahead to the future. In 2022, OPB celebrates 100 years of service to families and individuals across the Northwest.

OPB has changed a lot during this time. Starting out as a physics experiment at Oregon Agricultural College (now Oregon State University), OPB grew to become a critical, accessible, free public service that stretches across every corner of Oregon and southern Washington.

Whether you enjoy thought-provoking programs on OPB TV or on our streaming service OPB Passport, or you get the latest news updates on OPB Radio, opb.org and our newsletter 'First Look,' or you settle into one of our insightful podcasts, you connect with OPB now in more ways than ever. This has always been and will always be made possible by the support of members like you.

As you plan your year-end giving, please use the pink envelope included in this guide or go to opb.org/actnow to switch to a Sustaining membership or make a special year-end contribution to OPB today.

Your generous contribution will help ensure OPB's essential service to the community remains strong for the next 100 years.

COMING IN JANUARY MASTERPIECE AROUND THE WORLD IN 80 DAYS

In a thrilling new adaptation of Jules Verne's classic novel, David Tennant stars as the Englishman who bets a fortune that he can circumnavigate the planet in a mere 80 days —quite a feat, considering that it's 1872.
