Multnomah County Medical Examiner  
Investigators Narrative

Summary:

This case involves the death of a less than one day-old infant male found at a bus stop with his mother. The decedent was transported into the Medical Examiner's Office for examination by Dr. Gunson.

Information leading to this investigation:

Ken Whattam, of the Portland Police Bureau (PPB), contacted the Medical Examiner's Office at 0727 hours to report the death of the above named individual. Detective Whattam stated that this death will involve the Child Abuse Team (CAT). According to what was shared, the mother of the decedent aroused someone's suspicion while at a bus stop in Southeast Portland earlier this evening. She told another person at the bus stop that she had just given birth to a baby. When the bystander asked to see the baby, the mother revealed enough to cause this person to become concerned. A call to 9-1-1 was made at 0549 hours and paramedics from American Medical Response (AMR) Medlc 315 and Portland Fire Bureau Engine 11 arrived on scene shortly thereafter. PPB Officer Raphael arrived within minutes of paramedics arriving. AMR 315 performed resuscitative measures while emergently transporting the decedent to Doernbecher Children's Hospital's emergency department.

Response and arrival:

I arrived at the hospital at 1138 hours and spoke with Dr. David Sheridan, the attending emergency department physician, and examined the decedent in an emergency department treatment room.

Scene setting and description:

There was no scene visit due to the decedent being transported to the emergency department. The decedent was found at a bus stop in the 9100 block of Southeast Powell Boulevard.

Decedent position and physical description:
